

NEW MOTOR TROPHY RULES

BUTLER SKELTER RIDING.
Youngsters Enjoy Themselves at Dur-
land's Academy.

Nearly a hundred youngsters congregated at the Durland Riding Academy yesterday morning to try their luck at winning trophies in the relay race which the race proved to be a better skelter sort of affair, which kept half ponies on the colic in the ring and half dozen others standing in the centre of the track ready to replace them. The young people rode in couples and the prize went to the pair who changed their mounts and finished the race in the shortest time.

Miss Margaret Weather, who is the cleverest young equestrienne in the show ring, finished first with Herman Clark for her partner. Little Miss Kendall, who rode with Alfred Barth, was picked to wear the blue rosette. Miss Vera Cushman and Master Van Rooster, mounted third and Miss Dorothy Cassell, mounted fourth. Misses chosen to wear the white, Mrs. E. M. Kirkland, Miss Georgia Whitcomb and Miss Kipland were the judges.

The group competition was won by a team of four men and old men playing in such large numbers ability to play the game is transmitted year by year. When a man gets through at Williams he knows the game. There's a system rather than a coach to teach. There are no amateur basketball coaches. Dr. Barrett believes basketball helps men in other sports. It points out that Tempton, the star pitcher, played basketball and baseball as well as football; that Hamilton, the outfielder, is also a basketball guard, and that Wallace and Lambie, the catchers, are basketball players.

Students at Brown are in the thick of an intercollegiate to use a word which figures mouthingly and prominently in the muck-making of college athletics—pool and billiard contests. Judging from the liberal list of entries there is a good deal of interest in the tournament as well as in this pastime. It is somewhat strange that billiards does not flourish more extensively in college sports. Another notable match was between J. S. Cushman and H. D. Beckley, who defeated each other in a one-sided victory.

The award was made for his riding and not for the performance of his pony, for he had the unaided efforts of three men to aid him. The trophy was given to the pony's back instead of the tail.
